VIERA

COLLECTION

CARA

Tactile Craft. Enduring Luxury.

VIERA

THE CARA EXPERIENCE

Texture, Made Tangible

The Cara collection begins with the hand. A finely knurled cylinder, turned from solid brass, invites the fingertips before the eye has finished admiring it.

Every body carries the same diamond knurl, machined to a precise pitch so the grip stays sure even when wet. Above it sits a slim lever and a softly tapered spout, quiet counterpoints to the worked surface below.

Offered in six hand finished surfaces, from the warm depth of Brushed Gold to the quiet authority of Gun Metal, each applied over the same crafted form.

Tactile. Enduring.
Unmistakably Viera.

VIERA

SHOWER SYSTEMS

The Art of the Ritual

The Cara concealed valve carries the collection's signature knurl into the shower. A diamond cut control turns against a slim round plate with a reassuring, tactile precision. Overhead, a clean round rain head answers with calm. Function you feel, and form you remember.
