COLLECTION

LUNA

Sculpted by Light. Defined by Form.

VIERA

THE LUNA EXPERIENCE

The Geometry of Calm

The Luna collection is a study in considered geometry — where the soft cylinder meets the precise edge, and every surface is placed with intent.

At its heart is the signature blade spout: a flat, tapered channel that carries water in a single clean ribbon. Fluted collars and a finely knurled base add tactile rhythm, catching the light along their machined grooves.

The slim lever sits level and low, an architectural counterpoint to the rounded body. Together they compose a fitting that feels engineered, yet quietly warm.

Offered in six precious finishes — from the candlelit glow of Brushed Gold to the depth of Gun Metal — each treatment settles over the same exacting form.

Structured. Luminous.
Unmistakably Viera.

BASIN MIXERS

Poised in Light

Set against boldly veined marble, the Luna basin mixer holds the eye with its slim blade spout and finely knurled collar. In Brushed Gold, every machined groove gathers the candlelight — turning an everyday wash into a quiet act of luxury.
